Project Version Version 1.2

## CLASSROOM

### SCOPE

CCS will provide and install the equipment in this proposal in compliance with industry standards, manufacturer recommendations, and code. We'll wall mount each panel using a tilt-adjustable mount.

NOTE: The owner is responsible to provide power at the display mounting location and provide any backing that may be necessary.

### EQUIPMENT

	SUBTOTAL	\$3,819.89
	TOTAL TAX	\$0.00
	PROJECT TOTAL	\$3,819.89

## TERMS

\*\*All applicable taxes to be calculated at the time of invoicing THE PRICING WITHIN THIS PROPOSAL EXPIRES: **October 30, 2020**

### Owner Furnished Equipment

CCS Presentation Systems does not warrant either directly or indirectly the functionality or serviceability of any equipment not sold directly through CCS. Any estimates made that reference OFE are made with the client's assurance that the equipment is functional and meets the standards as required by the entire system that is being implemented. Delays in the availability of OFE equipment may result in additional costs due to resulting inefficiencies in labor deployment.

### Warranties and Maintenance

Unless stated otherwise, CCS Presentation Systems includes a 90-day installation warranty with no recurring preventive maintenance. An installation warranty covers the work performed to deliver, assemble and install system components and should not be confused with equipment warranties. Manufacturers' equipment warranties typically address only the repair and/or replacement of their products during their stated warranty period. The labor to uninstall and reinstall system components plus any associated shipping costs are covered by an installation warranty or maintenance agreement. The installation warranty covers:

- On site labor to diagnose and resolve system failures.
  - On site response time within 16 business hours
  - Service calls are to take place during our regular business hours (M-F, 8-5) unless special arrangements have been made in advance.
  - Work that must be performed during off hours may incur additional charges.
- Transportation and shipping charges for parts and equipment.
  - Optional expedited shipping may incur additional charges.
  - Owner-furnished equipment and/or equipment not covered by factory warranty may incur additional charges.

The installation warranty excludes:

- Repairs for system failures that were caused by abnormal conditions including:
  - lightning strike, fire, flood, earthquake, tornado, or any other acts of nature
  - obvious abuse, misuse, or negligence
  - failures caused by structural, mechanical, electrical, plumbing or other devices or systems not installed or maintained by CCS
- Replacement costs for consumable parts such as lamps, filters and batteries
- Changes to control system or other software programming that constitute a change in scope from the customer approved design.
- Repairs to owner-furnished equipment and/or equipment not covered by factory warranty

### Statement of Performance

This statement of performance is intended to provide you with our working standards and expectations while planning and installing your system.

### **Customer Responsibilities:**

- Reasonable access to the installation site and suitable secure space for the storage of equipment before installation if required.
- Electrical infrastructure to provide power to equipment.

- o Quality of electrical power. *Examples of possible issues include power fluctuations, surges, spikes, electrical noise and ground loops.*
- o Conduits and cable pathways which require modifications to structure such as core drilling
- o Quality of environment. *CCS will advise you of any unsatisfactory operating condition due to temperature, humidity, ventilation, mechanical structure or other safety concern.*
- o Voice/data cabling and the configuration of associated network and communications systems
- o Millwork and furniture modifications such as holes for specialty boxes installed in tables.
- o Structural modifications including reinforcement to support equipment loads, painting and resurfacing.
- o Quality of mechanical systems that may adversely affect the performance of an audiovisual system due to excess noise and/or vibration.

**CCS Responsibilities:**

- o CCS will install all equipment in accordance with the manufacturers’ specifications, national and local regulation ordinances and codes, including all OSHA guidelines.
- o Unless other arrangements have been made, on site work will be performed during the normal working hours of Monday through Friday, between 8:00AM and 5:00PM, except for recognized holidays. Additional charges may apply if work must be completed outside normal business hours.
- o CCS will run and terminate all low voltage cables and wires associated with AV equipment
- o CCS staff will maintain a clean and safe work environment. All unused materials, containers, tools and equipment will be removed whenever possible. CCS will take precautions to protect all floors, walls, windows and other surfaces from stains, marring or other damage.
- o CCS will provide all operation manuals and warranty documents.
- o CCS will acquire, assemble, deliver and test all specified equipment and components to provide a fully functional system.

CCS will provide basic training on system usage and features to your staff immediately following completion of the installation.

Acceptance

This statement of acceptance is intended to secure proof that the customer is familiar with the CCS terms and conditions of this proposal, as contained herein.

# CCS MAX - ANNUAL SERVICE LEVEL AGREEMENTS

It is the mission of CCS to help our clients effectively communicate their message. We believe that our CCS MAX SLA provides an extra level of support to make sure your visual communication systems are in peak operation with minimal or no down time. For systems that are considered mission critical with minimal tolerance for downtime, CCS may recommend that

our clients purchase spare equipment for rapid replacement and system recovery. Otherwise our timeframe for system repair will be limited by component availability, repair turnarounds and shipping schedules.

## Service Plan Features

- ▶ Covers all onsite labor charges (Equipment not covered by factory warranty may incur additional cost for factory repair or replacement)
- ▶ Priority Response & Resolution Status. Your issue goes to the front of the line, in relationship to customers that do not have a Service Agreement
- ▶ 2 business-hour telephone response time\*
- ▶ 16 business-hour onsite response time\*
- ▶ Semi-annual preventive maintenance
- ▶ Unlimited telephone support - Monday thru Friday, 8:00AM to 5:00PM
- ▶ Facilitation of manufacturer's warranty when applicable
- ▶ Loaner equipment – Depending on product availability
- ▶ Free training at time of semi-annual preventive maintenance visits

## Maintenance Provided

- ▶ Complete operational checks of the system functions
- ▶ Replace projector lamp, reset counter, clean or replace filters, and align\*\*
- ▶ Detailed inspection and testing of selected system components
- ▶ Adjustment of equipment settings as required to maintain overall system performance
- ▶ Professional cleaning of projector lenses and other critical surfaces, as needed
- ▶ Mechanical and electrical adjustment of video projectors as needed
- ▶ Inspection and repair any faulty wiring or connections
- ▶ Firmware updates as recommended by the manufacturers
- ▶ Service reports
- ▶ Recommendations for any additional services and upgrades

\*Response times are stated for locations within a one hour radius of a CCS physical office only.

\*\*The cost for consumable parts such as lamps, filters and batteries is additional for all agreements.
